

### **Clearwater Cardiovascular Consultants Names Kevin Mair as Chief Executive Officer**

HOUMA, LA (June 24, 2024) – Cardiovascular Logistics (CVL), the most comprehensive cardiovascular platform in the country, announced today the appointment of Kevin Mair as Chief Executive Officer of CVL's partner practice Clearwater Cardiovascular Consultants (CCC). Effective today, Mair succeeds Fred Simmons, who has served as CEO of CCC since 1995 and is now retiring.

Mair brings a wealth of experience and a visionary approach to CCC, aiming to further the organization's commitment to providing high-quality, cost-effective, and compassionate patient-centric care. He has a deep understanding of the complexities within the cardiovascular specialty, having held numerous executive roles with some of the largest cardiovascular programs in the southern U.S. Most recently, he served as Vice President of Care Transformation Services at MedAxiom, where he provided strategic guidance to cardiovascular programs nationwide, including service line development and physician integration modeling.

"Kevin is a transformational leader with a proven record of accomplishment," said David Konur, CEO of Cardiovascular Logistics. "His appointment marks a new chapter for CCC, ensuring that the practice continues to lead the way in cardiovascular innovation and in delivering the highest quality cardiovascular care available."

"I am honored to lead CCC and build upon the strong foundation laid by Fred Simmons," Mair said. "As we move forward, my focus will be on advancing our mission through innovation, enhancing patient care, and fostering a collaborative environment that upholds our standards of excellence."

Simmons has been a cornerstone of CCC since 1995, steering the practice through significant growth and establishing it as a premier cardiovascular care provider in the Tampa Bay region.

"Fred's dedication and visionary leadership have profoundly impacted our organization," Konur said. "He will be greatly missed by both colleagues and patients."

With a shared dedication to excellence, CCC and CVL have made a significant impact on the delivery of cardiovascular care and the improvement of patient outcomes since announcing their partnership in 2023. By leveraging CVL's expertise and innovative solutions, CCC is enhancing its capabilities, ensuring that patients receive cutting-edge and compassionate care. CVL is partnered with 4 cardiovascular practices across 6 states.
